### EXAMINER'S AMENDMENT

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/25/06 has been entered.

Amended claims 50, 52-56, 58-59 and 61 are pending in the present application.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Talivaldis Cepuritis on June 7, 2006.

The specification has been amended as below:

### EXAMINER'S COMMENT

In the examination of the instant application, the Examiner is aware of the co-pending Application with the Serial No. 10/833,743 filed on 4/28/2004; and the co-pending Application with the Serial No. 11/168,010, filed on 6/28/2005, with at least one common inventor. Provisional obviousness-type double patenting rejections could have been made against claims in these co-pending Applications. However, MPEP states that "If a "provisional" nonstatutory obviousness-type double patenting (ODP) rejection is the only rejection remaining in the earlier filed of the two pending applications, while the later-filed application is rejectable on other grounds, the examiner should withdraw that rejection and permit the earlier-filed application to issue as a patent without a terminal disclaimer".
